

Deliverable Worksheet (Must be submitted on Canvas)

- ☒ Home page design document (from assignment 1) uploaded
- ☒ All html/css files (combine into a compressed/zip file)
- ☒ portfolio.html updated if needed with the correct URL for project1.html
- ☒ URL for portfolio.html

URL: <https://catloaf627.github.io/CS-0120-Web-Programming-n-Engineering/portfolio.html>

Project requirements- check off those you completed. Add detail where requested.

- ☒ At least 4 pages [HOME](#), [genres](#), [reviews](#), [contact](#)
- ☒ Content must be "real" and realistic. Lorem Ipsum text is not acceptable.
- ☒ At least 12 CSS style rules
- ☒ A form
which page? [contact.html](#)
- ☒ A table
which page? [reviews.html](#)
- ☒ A list
which page? [home.html](#) – Hover your cursor over [Artists](#) or [Styles](#) in the navigation bar — you'll see a dropdown menu appear. Each item expands into a second-level menu with songs listed.
- ☒ An external stylesheet [styles.css](#)
- ☒ An internal stylesheet on at least one page
which page? [All of them](#)
- ☒ An inline style
which page and element? [the Book Now link](#)
- ☒ File sizes checked for all images [Except for the gif file under the videos folder](#)
- ☒ Two images – one must be a background image.
which page for background img? [home.html](#)
which page for other image? [reviews.html](#)
- ☒ At least two fixed page elements to make the site look consistent
what are they? [Navigation bar, the floating Book now button](#)

✓ The site was tested on a phone.

✓ Site passes mobile friendly test

Which test did you use? <https://pagespeed.web.dev/>

Values are estimated and may vary. The [performance score](#) is [calculated](#) directly from these metrics. [See calculator](#).

Are there any extra features you added that are not listed above?

1. Multi-level dropdown menus for navigation
 2. A floating "Book Us" button with an image
 3. A GIF background in the portfolio section
 4. Extra styling such as gradients, hover animations, and transitions
-

What site(s) did you look at for design inspiration?

In my initial design, I referred to this website <http://charliestudiosh.com/>

What would you add to this project if you had an extra week?

I would make the site more functional. For example, I'd connect the guest book and booking forms so submissions are emailed directly to me, add a working video player for the portfolio highlights.
